# Press Release

## future-ink Selected as One of The Leading Web Designers of the Western United States By Goldline Research

San Diego, CA, June 24, 2009: future-ink ([www.future-ink.com](http://www.future-ink.com)), a leading provider of website design and Internet marketing services, today announced that it has been selected by Goldline Research as one of the leading Web Designers of the Western United States for 2009. The list of leading Web Designers of the Western United States is scheduled to be published in the July 13th issue of Forbes.

"We are very excited to be honored as a Leading Provider of Web Design Services. We feel that this gives us an important distinction in a field where consumers have an overwhelming choice of web developer options," said Christianna Connell, President, future-ink. "Our integrity and commitment to quality are the cornerstones of our business, and it's wonderful to be recognized for it."

Future-Ink will also expand its operations this year, offering SEO Video services to its clients, in addition to traditional SEO-based strategies custom-tailored to the needs of both large and small businesses.

"We provide our clients with website designs and redesigns that are not only unique and functional, but now, thanks to our ability to offer SEO and SEO video marketing services, can help our clients to reach more of their targeted demographic," added Connell. "We focus on helping businesses develop websites that convert browsers into buyers."

Goldline Research recently completed its annual evaluation of independent web design professionals in the Western United States. The research study was conducted from May 2009 through early June 2009.

"Those selected provide extensive client service that exceeds the industry standard," said Dana Mahoney, Analyst, Goldline Research. "We believe that they are setting the benchmarks for the industry as a whole."

#### About future-ink

Currently celebrating 10 years in business, future-ink is a full-service website design and Internet marketing firm. Located in San Diego, they serve clients across the US and Canada. They widen the gap between themselves and their competition by creating websites designed specifically to convert traffic to leads. Their proprietary website development process combined with proven marketing strategies allows them to achieve dramatic results for companies in all industries.

#### About Goldline Research

Goldline Research ([www.goldlineresearch.com](http://www.goldlineresearch.com)) is an independent market research firm that specializes in evaluating professional services providers to help consumers identify and select leading services firms. Goldline Research's proprietary research process includes market analysis, individual company interviews and, in many industries, interviews with consumers of those services to gain feedback on market conditions and provider service levels. Goldline

Research's lists have been published in leading publications including local, regional and national magazines.
